HLB AUDIT & PARTNERS CO., LTD.

AUDIT & ASSURANCE SERVICES

Quality is at the heart of HLB – it is embedded in everything we do. So, when it comes to choosing a professional for your audit work, you can be confident in your HLB auditor. With audit quality being fundamental to maintaining trust in the financial reporting process, HLB's local and international audit & assurance professionals ensure that your audits are carried out in accordance with the International Standards on Auditing (ISA) and in compliance with the International Standard on Quality Control (ISQC 1).

One way we demonstrate our commitment to not only maintaining but constantly improving quality is through our membership of the Forum of Firms. As a network, we take our membership of the Forum of Firms seriously and have been proud to represent and give a voice to the mid-tier market on an international scale.

Our team in link with local and global audit and assurance professionals provide services to a wide range of clients across all industries and sectors. Some of the key areas we focus on, in addition to providing statutory audits, internal audits, compliance & regulatory audit, special purpose audits & review, and risk assurance & consulting.

Quality Assurance Inspection Committee

With Assurance as a key pillar of the HLB strategy, it is only natural that the work of our Quality Assurance Inspection Committee (QAIC) involves both local and global professional members joining the team.

Every year, HLB Global organizes an annual conference to share technical updates and regional training. Quality assurance is at the heart of QAIC's role. Its members, together with our project management team and a group of highly trained internal peer reviewers, ensure that the quality of HLB firms is regularly monitored.

Our experienced committee members have developed a unique process that combines quality management assessments with root cause analysis and continuous knowledge development, ensuring that best practices are adopted by our member firms and recognized by HLB Global. All these elements come together to enable our audit professionals to bring added value to every audit engagement.
